## class news

### Ruby Class

have been finding out about Life Cycles. We also designed imaginary lands at the top of the Faraway tree. We have also created our own 'kit lists' to help us prepare for our journey.

### Emerald Class

have been following the journey of plant hunter William Lobb who has travelled to Honshu Island. They have been writing newspaper articles reporting on his adventures.

### Sapphire Class

have been learning about electricity and its impact on the industrial revolution. They have been making simple electric circuits and drew them using scientific symbols. It has been a joy to see the children supporting each other and working collaboratively to get their circuits working.

### Diamond Class

have finished their class reader—Great Expectations by Charles Dickens—and have each written reviews of the story, discussing what they liked and what they felt could have been improved. They have also investigated the 22 plant hunters that were employed by the Veitch family in the 1800s—who were these people? and how did they get chosen for such an adventurous task?

### Road Safety around the School

We have had reports from several parents regarding the safety of children whilst crossing the road outside the school.

This morning a Ruby class child ran across the road between two parked cars without looking, causing cars to have to stop suddenly to avoid hitting them. A similar incident was reported on two other days this week.

All children have been reminded today about road safety and we would appreciate your support in ensuring that your child is aware of road safety. Please ensure that your child is kept close by to you when walking to school and ensure you find a safe place to cross the road.

### Green Team—Recycling Award
